- Export Shipments in
Current Marketing Year
- Daily Sales Reported
APRIL 25 - MAY 1, 1977

--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of May 5, 1977 (based on reports from exporters for the week ending April 24 unless otherwise noted):

Wheat: Sales activity continued the flurry which began last week. Principal buyers for the 1976/77 marketing year (MY) included Bangladesh and Portugal (under PL-480), Korea, Japan and the Soviet Union. The sales designated to the USSR included 40,255 metric tons (MT) purchased commercially by Bangladesh and ordered to USSR in repayment of an earlier loan. The balance of the USSR purchases was a switch from corn to wheat. MY 1977/78 activity was noteworthy as the Netherlands and Chile switched 1976/77 purchases forward to 1977/78 and several other countries made initial purchases or added to existing balances.

Corn: Moderate interest continued in corn as net sales totalled 578,600 MT. Significant sales were reported to Greece, the United Kingdom, West Germany, Italy and Portugal. The majority of the purchases by Greece were reported last week under the daily reporting system. USSR purchases declined by 28,300 MT, as a result of contract adjustments. Mexico purchased an additional 120,000 MT for 1976/77, reported under the daily system. Activity for the next MY was rather limited with Japan the only notable buyer.

Barley: Buyer interest picked up as sales activity totalled the heaviest in nearly two months. Algeria made their initial purchase for 1976/77 and added to 1977/78 purchases. Sales to unknown destinations also showed a significant gain.

Sorghum: It was a fairly active week with a number of countries adding to earlier purchases. Mexico was the targets buyer -- 55,800 MT -- followed by Israel, Portugal and Colombia.

Soybeans: Sales activity at 374,200 MT, continued moderately brisk, although well below the record level of two weeks ago. The EC, led by West Germany and the Netherlands, accounted for 47 percent of the new business. Japan and Spain added another 37 percent. Sales for the next MY increased by 110,800 MT due to purchases by the EC and Japan and sales to unknown destinations. Exports (407,300 MT) were down slightly from the previous week with the EC accounting for over half the total. The Netherlands, Japan, Belgium and the USSR were the major shippers.

Soybean Cake and Meal: Sales continued to slip from the heavy level of the preceding three weeks as the EC and Japan slowed purchases. The Netherlands, East Germany and Spain were the market's most active buyers. Exports of 58,000 MT were the smallest since early in the MY.

Soybean Oil: Sales were nil, however, the pace of exports picked up as Pakistan cleared 17,200 MT bought under Title I, PL-480.

Cotton: Sales activity for both the current and next MY soared, nearly doubling the previous weekly high, as prices sagged following the unexpectedly large April plantings intentions report. Sales for 1976/77 were 108,600 RB, principally to Japan, Korea, Taiwan and Hong Kong. This brings total sales to 4,980,900 RB, 106 percent of the USDA export projection. Additional sales are expected during the 14 weeks remaining in this MY, but some of these sales may not be shipped until early next MY. Sales for 1977/78 were 325,400 RB, 91 percent to Japan, Hong Kong, Taiwan and unknown destinations. This pushes total forward sales to 1,389,900 RB compared to 550,100 RB for the same period a year ago. Exports continued large as 108,800 RB were lifted, 81 percent going to Asian markets.

Rice: Commercial sales slowed as the bulk of the week's activity was a 60,600 MT sale of medium grain brown rice to Portugal. The Ivory Coast registered its first purchase of medium grain for MY -- 10,000 MT. Sales to unknown destinations fell by 11 percent as 10,600 MT was cancelled.

Oats: Showed no significant activity.

SUMMARY OF CURRENT WEEK'S TRANSACTIONS
For Week Ending April 24, 1977

Commodity	:Beginning : : O/S	New : : Sales 1/	Purchases from : : Foreign Sellers 2/	Buy-Backs and : : Cancellations 3/	: Exports 4/	:Outstanding : Sales

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account.

Data shown above may not add due to rounding.
